Work Experience

Membership and Refunds Clerk | Costco Wholesale Corporation 8/2020 to PRESENT

- Utilized AS-400 software to manage member accounts and transactions, ensuring compliance with Costco policies and procedures.
- Consistently met or exceeded individual sales membership goals and performance metrics.
- Responded to member inquiries and concerns in a timely and professional manner, utilizing both the AS-400 and CRM systems to research and resolve issues.

Programming and Math Tutor | Bellevue College, BAS 3/2024 to PRESENT

- Helped peers with programming and math assignments/projects to promote academic success

Projects

Personal Portfolio Website:

- Built and deployed a responsive portfolio website using HTML5, CSS3, JavaScript, SCSS, and GitHub; optimized with Webpack and Babel, hosted on Netlify.
- Integrated JavaScript DOM manipulation, CSS animations, and AJAX for interactivity; implemented SEO best practices and mobile-first design.

Tableau, Global Vaccine Tracker:

- Utilizing Tableau, built a Vaccine Tracker to track how vaccination program is performing worldwide. The interactive dashboard allows users to compare countries and see how they are progressing towards achieving immunity.
